

Audie Ross

This will destroy our earth. Please give at least 60 more days so community members can review and comment on the air quality permit equitably. Bloom energy has a history of illegally dumping hazardous waste, so the air quality permit application should be denied. If the permit is not denied, there needs to be a public hearing in Santa Teresa, in english and spanish, including an option to attend virtually. If this permit is approved, it will be government sponsored environmental racism. Residents of Doña Ana County are already disproportionately impacted by environmental pollution. For years, Doña Ana County has been called a 'nonattainment' zone— this means that their air quality does not meet federal government rules. Plus, the health hazards that will occur from this are near deadly.
