

Julia Hallberg

I am a resident of Sweden and i ask you to deny Yucca Growth Infrastructure's air quality permit. Our planet is enduring massive climate change and this will also disturb the animals and communities around.

New Mexico Environment Department should give the public an additional 60 days to review and comment on the air quality permit so community members can participate equitably. If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
