

## Emil lubag

The climate is a very delicate thing and I am 15 and I know much more than most teenagers in my age, thus the project can be detrimental and be the last nail in the coffin for wildlife and the environment.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping of hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
