

Phoebe McCallum

An Ai data centre like this should NOT be built. There is no valid reason for something this large and damaging to be created and the cons significantly outweigh the pros. The damage this will cause to the already unstable environment is not worth it and it is an incredibly stupid and selfish idea. The people DO NOT WANT THIS!!

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
