The only thing more powerful than hate is love. At the end of the day, at the end of your life, money won't matter. Assets won't matter. How many houses you had won't matter. What matter will be wellness, health, and looking back knowing you did the right thing for the world and for the future. For nature and peace to thrive. We need healthy animals. We need thriving nature. We need clean water. Stop this and start working for a better future. STOP AI AND DATA CENTERS. STOP DESTROYING YOUR HOME, NATURE. Just because you have rights today, doesn't mean you'll have rights tomorrow.
