

Sarah Raupagh

I oppose Yucca Growth Infrastructure's permit application request and believe it should be denied.

New Mexico's land, water (and supply), air and health risk significant impact with this project. Or anything correlated with Project Jupiter.

Bloom Energy's history with handling hazardous waste is a concern and Doña Ana County has already experienced enough environmental pollution.

If the permit is not denied a public hearing needs to be held in Santa Teresa, in both English and Spanish, with the accessibility option of virtual participation.

Thank you for your time
