

Crawford Pennington

The world is already filled with pollution. We already reached the limit faster than any of us could've imagined, and this is just like putting salt on these billionaires only concern themselves for when they die, but not the future generations to my goals. Do not stop this one, but stop all forms of pollution to reverse change.

New Mexico Environment Department should give the public an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
