This earth does not belong to us, we need to treat this earth as if it is a responsibility. God gave us this earth so that we can live with it and not experiment with its endurance. WHY ARE WE TRYING TO FIND OUT ABOUT STUFF WHILE RUINING THE ONE THING THAT HOLDS US LIVING. WE AS HUMANITY MUST FIGHT AGAINST THIS AND START LIVING WITH THE EARTH INSTEAD OF AGAINST THE EARTH. Everything that is living only lives once just like we humans and the earth only live once.
