My family has lived in New Mexico for generations and we've loved being here, we don't want our land, our air and our water taken away for data centers collection. Don't ruin the youths future for short term success. Let the people have water so we can survive. The air we breathe and the water we drink is what keeps me and you alive. Don't take away basic human rights until there aren't any left.

"The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually."
