

Avery Lykins

It's disgusting that there is even the possibility for this data center to be built. I can't believe the absolute disregard that people have for our fragile environment. All of this for money that won't be useable when the environment is too damaged.

"The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually."
