I'd like to voice my concern about what's happening in the world. It's absolutely ridiculous how some people still don't understand the majority of issues that could end humanity and everything that comes with it. You're a person on this planet as well, you eat, drink, and take everyday and it's not a choice for you to not give anything in return, AT LEAST don't overstep the boundaries and know the limit. I deeply admire the people who actually try to speak up, they are truly one of a kind, (which is not normal I believe everyone should be able to do so) DO SOMETHING!!!

"The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually."
