

## Yvonne Coronado

Hello, on or about June 25,2026, I was approached by a young woman at the Ross store in Las Cruces, New Mexico. She asked me how I felt about Project Jupiter. I expressed that I was against the project. She then gave me an iPad and told me to note my opposition . I asked her, oh Project Jupiter is also accepting opposition comments? she said yes., then she further stated the company is fair and willing to hear both sides. I believed what she said. I did enter my email address and sign it. It wasn't until a day later when I received the email that noted my support for Project Jupiter. I was fooled. I don't blame her I blame myself for trusting that I was noting my opposition. If she did that to me, i am sure she lied to other people. Also, the phone number listed on the email is not mine.
