

Andrea Lopez

Please leave our desert we have enough hardships and what you are doing is going to ruin our future environment. We are here to protect the natural resources and block you from our land. This is precious to our future generations and land quality. You are not welcome and we reject your offer to work in our New Mexico Land.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied given Bloom Energy's history of illegal dumping hazardous waste.

Approving this permit would be government-sponsored environmental racism as residents of Doña Ana County are already disproportionately impacted by environmental pollution.

If the permit is not denied, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
