

Norah bediako

My name is Norah, I live in France. In June, the country has been through the hottest days ever registered. I am 16 years old and now when I think of my future, I also wonder if we even could survive. Everyone is boycotting AI to save the Earth and to protect art, so don't use planet we are trying to save to make even more useless money. How is that money going to be useful if everyone died because of you.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
