Hello, I don't think project Jupiter should be approved. I am against all AI. AI is killing are planet. Instead of spending billions of money on the Project Jupiter, we should use that money to save the animals going extinct, to plant more trees, and to clean are earth. If we stop this project, I believe we would have a better future for are people.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
