I am writing as an information professional and New Mexican to voice my opposition to this project. The long-term ramifications are not worth the potential jobs, and I have no confidence that actual state residents will be the ones to benefit from any jobs or wealth that come along with the project anyway. The deceptive and exploitative marketing campaign undertaken so far demonstrates exactly what we can expect if this project goes through- and the people of New Mexico are attempting to make it clear that we don't want it. Thank you.
