

Beverly Carrasco

No data centers!!! The environmental make-up of this region is challenged with low water supply and air quality concerns with borderlands and oil field. The advertisement of Project Jupiter is misleading. Targeting rural areas with lower socioeconomic population is exploitation!!! Deny the permit and deny Project Jupiter.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
