

Malcolm Cuttingham

Dont you think we were perfectly fine without ai??? Also there are enough data centers all over the unites states that are taking up enough water??? Also our air is already bad enough it cant get any much worse can it?

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
