

Arielle Kibbee

I urge the NMED to reject YUCCA Yucca Growth Infrastructure, LLC's air permit application for the YGI Microgrid.

If NMED does not reject the permit, I ask the department to please hold a bilingual hybrid public hearing near the Santa Teresa community, so that residents can learn about the risks associated with fuel cell technology.

NMED should give the public 60 days of additional time to review and comment on the application to ensure everyone can understandably comment determine an opinion and participate.
