

Cory Windorff

I am concerned about the proposal for this air quality permit is being pushed through at a fast rate, without a chance for the public to view and comment on the permit. Therefore I am asking for an additional 60 days for comment.

So far, I am particularly concerned that the permit requests to emit an extremely high amount of carbon dioxide. It appears the requestor would like to emit more than the entire state, and that is quite concerning.

Thank you for your time.

Cory
