

## Andres Esquivel

I am against Project Jupiter, and I strongly urge the NMED to deny this permit. Bloom Energy has had a history of illegally dumping hazard waste, and accepting their permit would be government-sponsored environmental racism directed at residents of Doña Ana County. Additionally, the public should be given an additional 60 days to review and comment on the air quality permit. As Oracle has been feeding this public comment using peoples names without permission, this would be helpful to correct the record. If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually. Thank you for your time, please deny them this permit and let's not allow Project Jupiter to become a reality.
