

Guste Brazauskaite

Today we face a major challenge with climate change and depleting water supplies. This project would push local community and the human kind back massively in combating these issues. As a global citizen, I feel it is my right to a better future - one where projects like this have no place.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
