

Christa D. Slaton

I am 100% opposed to this project. I've read that it will consume excessive amounts of energy and water and be destructive to our quality of life. These billionaires care nothing about the damage to our quality of life. They have multiple homes and can live anywhere in the world they want. They believe they can purchase anything--our future, our quality of life, our souls. It is time to say NO MORE! We care about the future of our children and we cannot be bought. We do not believe in pipe dreams of greedy billionaire.

Follow the laws and do not rush into agreements that can destroy the quality of life for those of us who live here. The fact that this construction is being rushed without adequate hearings only demonstrates that deal is shady.

These billionaires are believing that everyone can be bought. Let's show them that EVERYONE is subject to the laws that were designed to protect all of us and EVERYONE is subject to the laws, no matter their wealth.
