STOP THE BUILDING OF PROJECT JUPITER. You are destroying the land, surrounding animal habitats and poisoning our Earth. How will you feel when you're one of the biggest contenders when it comes to destroying our Earth? If you want to protect our planet, your families, your children and their futures stop the building now, remove it please. If that's not enough of a reason here is more: the air quality permit should be denied given Bloom Energy's history of illegal dumping hazardous waste and approving this permit would be government-sponsored environmental racism as residents of Doña Ana County are already disproportionately impacted by environmental pollution - the air in this county has been called a 'non-attainment' zone for years meaning the air quality already does not meet federal government rules.
