

# Kathy Piersall

As a very concerned resident of Las Cruces, I oppose Project Jupiter, and the way it is being handled. There has been far too much secrecy. And those of us that will be most affected by it are being rushed to support it.

Respectfully, I demand that:

- The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.
- The air quality permit application should be denied, given Bloom Energy's history of illegal dumping hazardous waste.
- If the permit is not denied, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.

Approving this permit would be government-sponsored environmental racism, as residents of Doña Ana County are already disproportionately impacted by environmental pollution. For years, Doña Ana County has been called a 'nonattainment' zone— this means our air quality does not meet federal government rules.
