

Summer Farmstead

Why is it that we think this project will "thrive" the human population? The earth was healthier and thriving YEARS ago before these were invented. I will make sure my children have an earth when they grow up.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
