WE DONT NEED MORE DATA CENTERS. our water sources are only so accessible because the smaller communities are now more limited. We have one earth. let's not ruin it. Think of the future. your children. they will NOT survive on a earth with limited to no water source.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
