

Paige Murray

I do NOT support this!! We do not need data centers! We do not need ai! We need to be planting more trees and cleaning our oceans! Doing this and placing a huge data center will have a huge and significant impact on our nature and environment! The people who want to do this and who support this are SELFISH and all they care about is money they don't care about the earth or the environment. Fuck you for that. And if you have the AUDACITY to say you do even if you want to do this or if you support this, you're lying and you don't actually mean that. Do NOT put this data center up, do NOT support this, do NOT let this pass. Focus on the Earth. We need to clean the earth, plant more trees, put moss on buildings, focus on solar power, stop using fossil fuels. Make the world a better and healthier place.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
