This act is disgraceful and if it proceeds we are deemed to suffer, it pollutes our air and dries the rivers, now only will it effect humans but animals too as animals rely on rivers as a water source and like any living being , they , and we, rely on air to breathe .

"The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually."
