The proposed data centers are going to KILL US. The public does not want any more data centers in our state. It's your job as elected officials to listen to us. DO YOUR JOB. Do not sell out to these companies who are searching for control. There is a civic and ethical duty to protect the future of this state and of this earth. UNACCEPTABLE to let this environment destruction occur.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
