

Thara Lechuga

I am writing to express that I am AGAINST Project Jupiter, which I believe will ruin New Mexico. We live in a desert and water is already a huge issue for our state.

Yesterday I spoke with a representative from the organization ORICLE and gave my information to include as NOT supporting Project Jupiter. I wanted to respond again myself to ensure that my correct response is recoded and passed on to New Mexico Legislators.

I urge the New Mexico Environment Department NOT to approve Project Jupiter

Sincerely,
Thara K Lechuga
