

Catherine Z

don't make climate change worse than it already is. These projects are going to be the cause of the end of the earth. Save our animals that we rely on to survive ourselves. Keep the air clean because we don't want a future where our younger generations are having to breath out of dense supply of oxygen tanks.

New Mexico Environment Department should give the public an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
