

Sandra Williams

We dont need more data centers, its unnecessary and enough water is already being wasted om generative AI! No more unnecessary AI, it takes too much water and no one needs this amount of AI, stop enforcing it!!! The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
