STOP PROJECT JUPITER We DONT need or want a giant data center polluting our already polluted earth!! Global warming is already a big problem, and this will just make it so much worse. This is our ONLY planet that we can live on, no amount of money can buy a new planet. The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably. The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County. If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
