

Shane Garcia

This data center needs to come with metric based assurances that emissions will not increase, water and electricity will not become more scarce, and prices will only decrease. Penalties must be wholly and immediately enforceable without appeal, to included to surrender of all property and materials to the people of New Mexico. These companies have enough money to house all of albuquerque 100 times over. If they come into our town and make our lives worse not better, then we will do the same. And we will include the elected officials that allowed this to happen.
