

Erik Madrid

We do not want the data center in our community abusing our water source, over demand from our electric infrastructure & pollute our air.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.

Submissions through this form will be sent directly to the Air Quality Bureau at the New Mexico Environment Department (NMED).

Our Demands to the New Mexico Environment Department

- Add 60 days to the review and comment period for this air quality permit application
- Deny the air quality permit application given Bloom Energy's history of regulatory issues.
- If permit is not denied, a public hearing needs to be held in Santa Teresa
