Even though I am not a resident of New Mexico, I still live on this earth and care about the people who live on it with me—and they're building data centres in my town. Generative AI is not needed. It poisons the land and is contributing to the collapse of our climate. Project Jupiter would do nothing but fill the pockets of people who have more money than they could ever spend in their lifetime. Our world is always going to be more valuable than a data centre. Every tree, lake, river, plant, bug, even the tiniest bacteria matter more.
