I can no longer stand idley watching our beautiful forests, our great waters, and our amazing planet be destroyed and taken advantage of by these ai data centers. I just want these people to imagine themselves as an animal with the sounds these centers are outputting(DISNEY MADE A MOVIE ABOUT IT ITS SO BAD?!). I just really want some justice for mother earth and if this is how I can help then this is what I can do. Please stop project Jupiter. PLEASE STOP PROJECT JUPITER!
