You're insane and selfish if you believe that Project Jupiter developers should proceed with the world's largest data center. WE WILL ALL SLOWLY DIE AND BECOME SICK BECAUSE OF THE 10 MILLION TONS OF FUEL CELLS BEING POLLUTED INTO OUR AIR! We will all run out of clean drinking water and rivers will dry out. Project Jupiter is inhumane. We deserve 60 days to collect and review information about the air quality permit. The air quality permit NEEDS TO BE DENIED! Given Bloom Energy's untrustworthy record of illegal dumping toxic waste. A public hearing should also be held in Santa Theresa given in both English and Spanish with an option to attend digitally. Please for everyone's sake please don't move forward with Project Jupiter. I beg of you. You'll kill us all.
