

Paela Duvall

Project Jupiter will jeopardize the lives of the people who live in New Mexico, it is disgusting and immoral to put the wants of careless billionaires over the lives of poor innocent people and the world as we know it. Doing this will keep the long standing tradition of treating New Mexico as nothing more than a place to steal from, to take for your own sakes. It's awful to watch this happen and feel helpless about it. Project Jupiter will ruin people's lives if we don't stop it before it's too late. The permit for air quality should be dumped, as Bloom Energy has shown a disregard for people with their past of dumping hazardous waste illegally. And an additional 60 days to review and provide comments on the air quality should be given to allow community members to equally participate.
