Please stop them. Air quality when Asarco was operating was dangerous. Don't let it happen again. We live in a fragile ecosystem that is bound together. The air quality permit application should be denied given Bloom Energy's history of illegal dumping hazardous waste.

Approving this permit would be government-sponsored environmental racism as residents of Doña Ana County are already disproportionately impacted by environmental pollution.

If the permit is not denied, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
