STOP PROJECT JUPITER! we do not need data centers and we never did before to survive. You are taking away resources people need to survive for your own selfish needs. Only when the last drop of water has been dried up will you realize you can not drink money.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
