

Robyn Squyres

Those funding project Jupiter have already committed fraud against our community just to get what they want. In this new era of lawlessness and exploitation, New Mexico absolutely cannot afford to let such openly venal, greedy, fraudulent, exploitive people in to our community to do their business. Business that will have little to no positive effect on the communities they build in. Business that will drain our resources and offer our community nothing. Project Jupiter should not even be considered.
