

Alaysia Kirkland

We do not need AI to survive. I am not picking somebody to do things for me. That is quite literally making the world worse than what I can do for it which is better cause I'm not gonna be lazy. I'm not trying to let things get me thinking that I'm stupid when I can do it myself. I want water and if that has to include me working hard for it that is just what's gonna happen because I live without AI before I don't need it now.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
