

Alysia Sufrin

This permit and the entire project reek of corruption. This level of emissions would undo all of our climate and carbon goals. DENY THIS PERMIT!!! Doña Ana is my home, I have nowhere else to go. I'm not alone. This project perpetuates a history of using NM as a testing ground for unproven technologies. This is environmental racism. This project will bring LESS jobs to Doña Ana than LCPS, just ONE school district in the county, besides that it only brings pollution and destruction of our resources. Right next to SEVERAL SCHOOLS? ? ? SAVE US!!! DENY THE PERMIT!!!
