

Isabella Schlueter

Why does the government think we need more data centers even tho we have all stated either limiting to not even using Ai. What does this even solve nothing because all they want is to see the planet suffer for example they're trying to build data centers in my state when my state is going through the worst drought in ages. We need to stop data centers we don't even need more of them because the hell because the government just wants to fuck us over to the point we're too tired to fight back. The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
