

Alyssa C

We do not need AI to exist!! Stop building data centers that speed up global warming and will eventually kill us all! These data centers are a direct cause to the rapid rise of temperature in the world, and all for what? An AI that can tell you how to solve simple math problems, or write you an essay that doesn't even sound human? It's not necessary! You're killing our planet for no reason! New Mexico Environment Department should give the public an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
