Health impacts of air pollution & hazardous waste I am a resident of Albuquerque, NM and I am asking that you deny Yucca Growth Infrastructure's air quality permit. The impact of air pollution and hazardous waste will be devastating and irreversible. We are already breathing some of the most compromised air in the country. It is unacceptable to invite a new source of hyperscale air pollution into our communities. We need to be working on solutions to improve our environment not making it worst.

"The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually."
