Approving this permit would be government-sponsored environmental racism as residents of Doña Ana County are already disproportionately impacted by environmental pollution. For years, Doña Ana County has been called a 'nonattainment' zone— this means our air quality does not meet federal government rules. If the permit is not denied, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually. - PLEASE STOP THIS! We have families and dreams that need to be achieved. How will we do that if you are killing our world. Take a second, look at your own family. Your own kind. How would it feel to see them in harms way. We should not be denied our free will and GOD'S GREEN EARTH because you are too selfish to know that you will kill us all. You cannot keep building this and think for a second that this is good. If you keep building then you will see the detrimental damage caused by project jupiter. Cherish what you have instead of filling the air with poison. Why? What does it do for YOU as a HUMAN. A PERSON. Do you not see that they are using EVERYONE? This isn't for you. It's for money. Greed. Nobody cares. Please stop this and change. Money perishes and you will too!!!!!! If your family were to die because of the posion and chemicals you are choosing to release into the world then what would happen then? Is it that hard to understand how it will affect EVERYONE?? Just make money by working hard. Instead you can HELP instead of HARMING. People would support you 10 fold if you were just willing to HELP. Do you believe that you are safe because you are the one helping to keep project jupiter alive? You're not. Keep everyone safe by saving the environment and maybe then you can be filled with the abundance of money AND joy as well as being supported. Don't take the shortcut of killing everyone off and saving yourself by building this. Please. Don't pollute everyone's one and only world. We only get one life. We all deserve a happy ending.
