

Amy Simpson

Source NM recently documented and reported the fact that paid Project Jupiter proponents are falsifying public comments and submitting them to NMED. This has happened in multiple cities; it is a premeditated and coordinated strategy to mislead NMED and the public.

NMED needs to:

1. Immediately investigate these illegal actions and involve the NM Attorney General to fully investigate and prosecute;
2. Send an email to all the people who made comments with a copy of their comments to confirm if these were real or falsified;
3. Remove all fake comments from the NMED website.
